MindStream Analytics Partners with Accelatis LLC

Announces joint development Beta Hyperion Planning performance analysis and optimization utility

Boston, MA – April 21, 2010- The Company announced today that it has formalized a partnership agreement with Accelatis LLC. Accelatis is the provider of Ascension Suite, a utility that delivers an integrated collection of enhancements for Hyperion products with HFM functionality. It focuses on critical KPI's to monitor the environment, automate tasks, conduct performance analysis, optimize the application, and perform SOX compliance reporting. The Partnership is developing a Planning plug-in for Ascension that will enhance and extend Hyperion Planning / Essbase application administration.

"Accelatis Ascension Suite for HFM is a very powerful tool to help optimize existing applications and reduce implementation times for new installs" said Alex Ladd, Sr. Partner MindStream Analytics. "We are excited about working with Accelatis to develop and launch added functionality focused on Hyperion's Planning / Essbase products".

MindStream is currently working with several Beta clients on enhancements for the new utility.

About MindStream Analytics

MindStream Analytics helps companies identify and implement technology that allows them to effectively analyze and predict key metrics.   MindStream Analytics specializes in the implementation of analytic applications.   For more information, please visit http://www.mindstreamanalytics.com .

About Accelatis LLC

Accelatis, LLC was founded with the goal of delivering solutions to existing Hyperion clients that will increase their return on Hyperion investment while cutting their TCO. Ascension Suite will improve performance while decreasing TCO on your Hyperion deployment. Developed with the knowledge of Hyperion Products at the code level, Ascension is your "Hyperion Expert in a Box".   For more information, please visit http://www.accelatis.com
