Oracle Hyperion Planning

## Bringing it All Together With Calculation Manager

### Live Webinar Presentation

**DATE:** Friday, March 2, 2012

**TIME:** Noon to 1pm Eastern

**LOCATION:** GoToWebinar

**PRESENTED BY:** PHILIP SABLE- Senior Consultant, *MindStream Analytics*

### Introduction to Oracle Hyperion Calculation Manager

In the past when using the Oracle Hyperion tool set, it was necessary to develop calculations in multiple applications. Users have expressed a desire to centralize the development of calculations across these applications. This desire, coupled with Oracle's continued commitment to investment in the Hyperion application suite, has resulted in the creation of Oracle Hyperion Calculation Manager. Calculation Manager is a powerful tool for developing and administering rules for Planning, Essbase and Hyperion Financial Management. An intuitive graphical interface is available to help in the development process, helping to expedite movement through the learning curve for people new to Oracle Hyperion Planning, HFM and Oracle Essbase. The focus of this Webinar will be to explore Calculation Manager functionality in Essbase and Planning. Attendees will learn about

- Introduction to Oracle Calculation Manager functionality
- Insight into the Calc Manager's graphical interface
- Live demonstration of the tool

#### **About MindStream Analytics:**

MindStream Analytics is a consulting and managed services firm dedicated to helping clients enable better decision making. With over a decade of experience in the analytics and Enterprise Performance Management space, MindStream offers customers business intelligence and analytic tool selection, predictive modeling development, real-time streaming analytics, Profitability Costing models, EPM design and delivery optimization and best practices for financial planning. MindStream guides their customers to a solution that enhances business modeling enabling better analysis and insight into their data. We believe that the power of technology combined with best practices will give customers the ability to make fact based decisions.
