## MindStream Analytics Ranked in World's Top 501 Managed Services Providers

April, 2015 – BOSTON, MA – [MindStream Analytics](http://www.MindStreamAnalytics.com), a leading Enterprise Performance Management consulting and Managed Services firm focused on helping clients improve business understanding and decision making, is ranked in the world's top 501 Managed Services providers by Penton Technology's 8<sup>th</sup> Annual [MSPmentor 501 Global Edition](#) – a distinguished list and report identifying the world's top managed service providers (MSPs).

MindStream Analytics is focused on delivering premier solutions to clients by enhancing technology and aligning resources through a systemic process to harness insight and enable financial and operational fact-based decision making. MindStream's managed services solution offers a certified Application Support team who manage every aspect of our client's application. We provide break-fix services, enhance core functionality and improve application performance. This is managed services a-la-carte with consistent, predictable and reasonable costs.

Each year, [MSPmentor](#) gathers information for its annual rankings through the participation of managed service providers and IT service providers in our annual survey. The survey was conducted from December 2014 through January 2015. Rankings are based Penton Technology's unique criteria for MSPs such as annual recurring revenues, total revenues and more. This year the top *MSPmentor 501* companies recorded higher recurring revenues than ever before. Combined, the total annual recurring revenues for all of *MSPmentor 501* 2015 companies reached a record high of \$3.95 billion in 2014, up 26.5% year over year.

"We are very honored and excited to have achieved a ranking as one of the best managed services providers," said Alex Ladd, Senior Partner, MindStream Analytics. "It's really gratifying to receive recognition for the work we have been doing and the validation of our skills and abilities."
