MindStream Analytics Enhances its Oracle Hyperion Managed Services Offering

Boston, MA – December 21, 2010- MindStream Analytics, a leading solutions provider of Oracle Hyperion remote application support services, announced today that it has formalized a partnership agreement with Accelatis LLC © to enhance and extend its managed services offering to its clients. Accelatis is the developer of Ascension Suite, a utility that delivers an integrated collection of enhancements for Oracle Hyperion application products. It focuses on critical KPI's to monitor the environment, automate tasks, conduct performance analysis, optimize the application, and perform SOX compliance reporting.

“Accelatis Ascension Suite for HFM is a very powerful tool to help optimize existing applications and reduce implementation times for new installs” said Alex Ladd, Sr. Partner MindStream Analytics. “We are excited about working with Accelatis to deliver enhanced visibility into the performance of our client’s applications and provide industry-leading customer support”.

As of January 1, 2011, the enhanced service will be available to all new MindStream Analytics managed services clients.

MindStream Analytics is a managed services firm focused on Oracle Hyperion remote functional application support offerings. With a team of U.S. based Hyperion consultants and administrators, they improve client’s application performance, reduce system maintenance, and enhance core application functionality. The solution reduces cost and improves user experience.
