

MindStream Analytics Achieves Oracle PartnerNetwork Specialization for Oracle Hyperion Planning

Oracle Recognizes MindStream Analytics for Expertise in Providing Consulting and Managed Services with Oracle Hyperion Planning Application

Boston, MA – April 29, 2011 - MindStream Analytics, a leading provider of Oracle Hyperion performance management applications and a Gold member of Oracle® PartnerNetwork (OPN), today announced it has achieved OPN Specialized status for Oracle Hyperion Planning.

To achieve Specialized status, Oracle partners are required to meet a stringent set of requirements that are based on the needs and priorities of the customer and partner community. By achieving a Specialized distinction, MindStream Analytics has been recognized by Oracle for its expertise in delivering services specifically around Oracle Hyperion Planning through competency development, business results and proven success.

“We are excited about achieving Specialized status,” said MindStream Sr. Partner, Alex Ladd. “It recognizes the effort and expertise of our entire staff to deliver world-class Oracle Hyperion applications to our clients.”

“MindStream’s reputation for Hyperion experience has quickly made them a valued Oracle partner,” said Tyler Prince, group vice president, North America Sales, Applications and Public Sector Alliances & Channels, Oracle. “We congratulate them on their Specialization achievement.”

MindStream Analytics focuses its resources on the Oracle Hyperion performance management applications. They are a full service consulting and managed services provider that can deliver end-to-end project expertise from Strategic Road mapping to design, build, test, train and support multi-application environments.
