

### HOW HEALTHY IS YOUR HFM APP?

Has your application performance dropped? Has it scaled to meet your growing needs? Are you utilizing the full potential of the application? If Oracle's Hyperion Financial Management is your critical financial consolidation reporting application, then you owe it to your company, your auditors, your user-base, and your peace-of-mind to understand the health of your application. MindStream Analytics can help. We are an Oracle Gold Partner with Hyperion application specialization that can quickly and expertly analyze the performance of your HFM application and deliver a comprehensive report on your current state and provide actionable insight for optimization.

We call it HFM X-STREAM

### KEY DELIVERABLES INCLUDE:

1. Environment Management
2. Activity Log Analysis
3. Task Flow Automation recommendations
4. Current State Performance Analysis
5. Application Optimization roadmap

### WE CAN PROVIDE DETAILS ON:

- |   |   |
|---|---|
| <ul style="list-style-type: none"> <li>• Identify System bottlenecks at the component level</li> <li>• Users with slowest response times</li> <li>• User load history</li> <li>• Traffic volume by geography</li> <li>• Average traffic volume</li> <li>• Subcube Analysis</li> <li>• Data Table Analysis</li> <li>• Activity Durations (consols, webforms)</li> <li>• Product Settings Range Validation</li> <li>• Log File Size Analysis</li> </ul> | <ul style="list-style-type: none"> <li>• File Version Consistency</li> <li>• Server configuration settings consistency</li> <li>• Product Settings Compatibility and Consistency</li> <li>• Data Audit Enabled</li> <li>• Hard Zero Record Analysis</li> <li>• Historical activity analysis</li> <li>• Bandwidth analysis by user / by Geo</li> <li>• Web traffic volume</li> </ul> |
|---|---|

We employ an HFM Optimization Utility to assist in our analysis. It is purpose built for HFM applications. We can render results in hours that would normally take weeks to complete manually.

### TAKE YOUR HFM APP TO THE NEXT LEVEL. TAKE IT TO THE X-STREAM!
