

Drive predictable performance, report with confidence,
and connect the entire organization

A NEW GUIDANCE SYSTEM

Oracle's Enterprise Performance Management (EPM) Cloud Service provides market leading functionality with fast time to value, simplicity of configuration and pre-built content for deeper integration and easy extensibility. With industry standards and modern best practice, Oracle EPM Cloud helps drive accurate and agile plans across finance and lines of business, analyze profitability and cost management, accelerate the financial close, and much more.

Oracle has the broadest cloud portfolio in the industry, delivering a complete range of production-level, cross-functional business applications for each part of your organization.

Planning and Budgeting Cloud Service (PBCS) allows businesses to drive for predictable performance across the organization and significantly improves forecasting accuracy and speed.

Enterprise Performance Reporting Cloud Service (EPRCS) streamlines internal and external reporting processes by bringing together data plus narrative in a single, secure, and collaborative environment.

Additional EPM cloud applications include:

- Account Reconciliation
- Enterprise Planning
- Financial Consolidation and Close
- Profitability and Cost Management
- Tax Reporting

Oracle cloud applications support 23 languages and multiple industries and geographies. Business users have the latest innovations at their fingertips across finance, sales and marketing, customer service, supply chain management, human capital and talent management—all enriched with social-engagement and collaboration tools, and an intuitive user interface that works on any mobile device.

About MindStream Analytics

MindStream Analytics is a leading consulting and managed services provider. As an Oracle Gold Partner, we are committed to helping growth-oriented mid-size and large organizations acquire, implement, host, and manage strategic solutions that further your Oracle Hyperion investment.

- ✓ Hosting Services

To learn more about how MindStream Analytics can help you move to the cloud, email sales@mindstreamanalytics.com or call **1(800) 497-0151**.

These applications have been architected on a modern and open service-oriented platform to simplify integration needs and lower total cost of ownership. Oracle's market-leading EPM applications, combined with the innovation and simplicity of the cloud, help companies of any size drive predictable performance, report with confidence, and connect the entire organization.

Key Features and Benefits:

- Best practices come out-of-the-box to get up and running quickly
- A configurable, upgradable framework that allows users to tailor the solution to specific requirements
- Easy to use and easy to maintain.
- Scalability to address both operational and finance processes
- Intuitive business wizards allow users to evolve processes as the business changes
- Powerful analytics, dashboards, what-if, and predictive capabilities provide unparalleled insight into the business
- Since it's a cloud solution, there are no capex infrastructure investments required

THE MINDSTREAM ADVANTAGE

Leveraging our Enterprise Performance Management (EPM) expertise, MindStream has developed Cloud Xtream, combining the benefits of Oracle EPM Cloud solutions with our award-winning, unlimited 24/7 dedicated support - MindStream **AppCare**. For a low monthly fee, your application is carefully managed using best practices.

We've designed Cloud Xtream for rapid implementation of Oracle Cloud solutions - in weeks, not months - using our accelerator tools, proprietary templates, and best-in-class EPM knowledge. With Cloud Xtream, the benefits of Oracle's world-class finance solutions become accessible across the enterprise.
