

Oracle Cloud Solutions

Planning Xstream for Oracle Planning and Budgeting Cloud Service

Planning Xstream enables organizations of all sizes to quickly adopt world-class planning and budgeting applications with no CAPEX infrastructure investments, driving market-leading functionality beyond finance across the enterprise, with flexible deployment options and virtually no learning curve.

COMPLETE PLANNING, BUDGETING AND FORECASTING IN THE CLOUD

Oracle Planning and Budgeting Cloud Service is a flexible planning application based on Oracle Hyperion Planning that supports enterprise wide planning, budgeting and forecasting in a cloud-based deployment model. Oracle Planning and Budgeting Cloud Service provides rich Web and Microsoft office enabled planning and modeling framework that supports driver based planning to help connect operational assumptions to financial outcomes.

PLANNING XTREAM DESIGNED FOR SPEED, SIMPLICITY AND VALUE

MindStream Analytics has developed a unique service offering leveraging our years of enterprise performance management (EPM) experience and proven implementation methodology. Planning Xstream by MindStream Analytics is designed to rapidly get you up and going quickly in weeks vs. months utilizing accelerator tools and templates that rapidly provide a defined scope, predictable timeline and no surprise in cost.

ABOUT MINDSTREAM ANALYTICS

MindStream Analytics is a leading Oracle Consulting and Managed Services provider. As an Oracle Gold Partner, we are committed to helping growth-oriented midsize and large organizations acquire, implement, host, manage and support Oracle solutions.

MindStream Analytics uniquely offers integrated services for the Oracle technology stack and lifecycle across Oracle Enterprise Performance Management, Business Intelligence, Analytics and Data Management.

At MindStream Analytics, we make Oracle easy throughout the technology lifecycle, allowing our customers to spend less time managing their technology and more time focusing on what they do best.
